

St. Charles' Primary & LCR

Standards and Quality Report 2021/2022

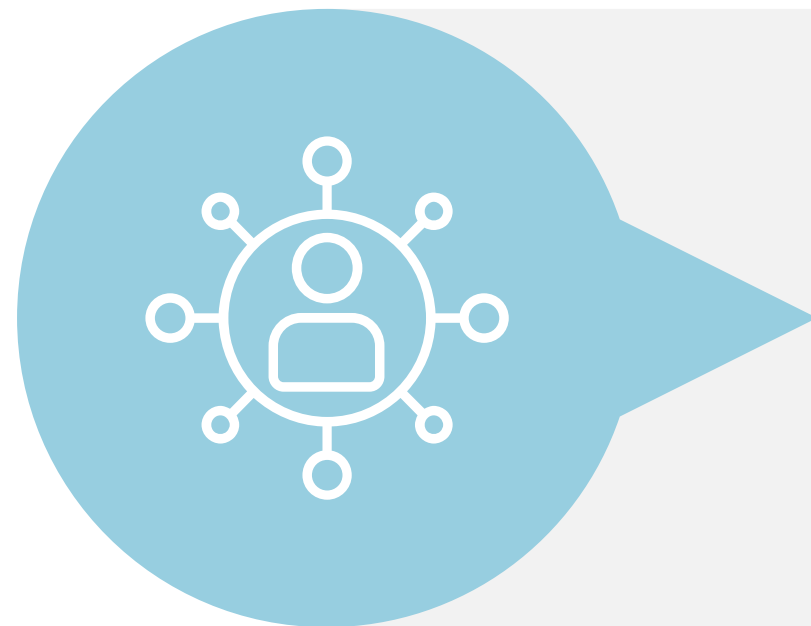

Leadership

We remain committed to developing leadership at all levels. This year Two of our Principal Teachers completed Masters in Educational Leadership. Another Principal Teacher is studying for a Masters in Inclusive Education. One of our class teachers completed the Education Scotland Aspiring to Middle Leadership programme and a further two class teachers undertook Education Scotland Wellbeing Learning Leader training.

Leadership

Eight children trained as Outdoor Learning Leaders and now support sessions throughout the school. Twelve pupils undertook Education Scotland 'Young Leader of Learning' training to empower them to be more actively involved in our ongoing self-evaluation activities. They will now begin to promote ways that our pupils can be involved in school improvement activities in our own school.

Inclusion and Equality

During the October In-Service Day all staff members undertook training to develop their understanding of Children's Rights. Staff also completed an Equity in Education 'Leader in Me' on demand module. We have registered for our Rights Respecting School Award and will now work to incorporate Children's Rights into our daily work.

Inclusion and Equality

Thanks to incredibly generous donations from our parents and community partners we were gifted £1500 worth of culturally diverse library books which reflect the children in our school community. The children now have access to books featuring characters that look like them and come from families like theirs.

Outdoor Learning

Staff are using outdoor learning effectively to support the wellbeing of the school community. Increasingly, outdoor environments are being used to deliver the curriculum. Learners views, ideas and interest are influencing how staff plan opportunities for learning outdoors. Partners are involved effectively in the planning, delivery and evaluation of outdoor learning.

Outdoor Learning

Thankfully the Covid restrictions were relaxed to allow residential educational trips to restart. 27 of our Primary 6 and 7 pupils were able to part in a three day experiences at Lockerbie Manor in February. 30 of our Primary 5 pupils had an overnight experience at the Millport Field Studies Centre in May.
